Climate Quest

This

half term we are
going on a quest

to Canada and the Sahara Desert as we will be comparing hot and cold places. We will be learning about the equator, the weather in different environments, animals that live in different countries and how they are suited to live there and how different places celebrate festivals! Below are some ideas of what you can do at home to support learning.

- Find out facts about one of the places we are learning about. (Canada and Sahara desert)
- Draw a picture of what you would take to one of these places if you were visiting.
- Find out about what animals live in the different countries.
- Learn about a festival celebrated in one of the two countries.
- Make a meal that might be eaten in one of the two countries.
- Plan a trip to a country.
- Draw a picture of a famous landmark in one of the two countries.
- Create a picture of the landscape of the countries.

Have fun and please send a message on Class Dojo if you have any queries regarding the activities.

Thank you for your continued support.
